Midrand, South Africa, November 2, 2017 - MiX Telematics Limited (NYSE: MIXT, JSE: MIX), a leading global provider of fleet and mobile asset management solutions delivered as Software-as-a-Service (SaaS), today announced financial results for its second quarter and first half of fiscal 2018, which ended on September 30, 2017.

“MiX reported a very strong second quarter, highlighted by our ability to exceed expectations across all key operating metrics,” said Stefan Joselowitz, Chief Executive Officer of MiX Telematics. “Our 18% year over year subscription revenue growth on a constant currency basis was broad-based, driven by uptake from our premium fleet customers globally. Additionally, this is the fifth consecutive quarter of adjusted EBITDA margin improvement. We are confident in our ability to maintain the momentum as we continue to execute our strategic initiatives and remain committed to achieving our longer-term adjusted EBITDA margin target of 30% plus.”

Operating margin was 11.0%, compared to 7.1% for the second quarter of fiscal 2017. The margin expansion was attributable primarily to the revenue growth leveraging our fixed overhead, and to ongoing cost management

initiatives. Operating expenses of R224.1 million (\$16.5 million) have declined by R2.8 million (\$0.2 million), or 1.3%, since the second quarter of fiscal 2017.

Earnings per diluted ordinary share were 4 South African cents, consistent with the second quarter of fiscal 2017. For the second quarter of fiscal 2018, the calculation was based on diluted weighted average ordinary shares in issue of 566.0 million compared to 633.4 million diluted weighted average ordinary shares in issue during the second quarter of fiscal 2017. The diluted weighted average ordinary shares in issue during the second quarter of fiscal 2018 were lower than in the second quarter of fiscal 2017, due to the weighted average impact of the share repurchases fully described in note 7 to the unaudited Group interim financial results for the six months ended September 30, 2017.

The Company's effective tax rate for the quarter was 50.2% compared to (15.4%) for the second quarter of fiscal year 2017. Adjusted earnings for the second quarter of fiscal 2017 excluded the net foreign exchange loss of R8.4 million (\$0.6 million) referred to above. Adjusted earnings per diluted ordinary share, also a non-IFRS measure, were 5 South African cents, compared to 3 South African cents in the second quarter of fiscal 2017.

On a U.S. Dollar basis, using the September 30, 2017 exchange rate of R13.5618 per U.S. Dollar, and at a ratio of 25 ordinary shares to one ADS, adjusted earnings for the period were \$2.3 million, or 10 U.S. cents per diluted ADS.

Statement of Financial Position and Cash Flow: At September 30, 2017, the Company had R256.9 million (\$18.9 million) of net cash and cash equivalents, compared to R311.3 million (\$23.0 million) at March 31, 2017. Segment commentary for the first half of fiscal 2018

The segment results below are presented on an integral margin basis. In respect of revenue, this method of measurement entails reviewing the segmental results based on external revenue only. In respect of Adjusted EBITDA (the profit measure identified by the Company), the margin generated by our Central Services Organization ("CSO"), net of any unrealized intercompany profit, is allocated to the geographic region where the external revenue is recorded by our Regional Sales Offices ("RSOs").

CSO continues as a central service organization that wholesales our products and services to our RSOs who, in turn, interface with our end-customers and distributors. CSO is also responsible for the development of our hardware and software platforms and provides common marketing, product management, technical and distribution support to each of our other operating segments. CSO's operating expenses are not allocated to each RSO.

Each RSO's results reflect the external revenue earned, as well as the Adjusted EBITDA earned (or loss incurred) by each operating segment before the CSO and corporate cost allocations.

Business Outlook

MiX Telematics has translated U.S. Dollar amounts in this Business Outlook paragraph from South African Rand at the exchange rate of R14.0838 per \$1.00, which was the R/\$ exchange rate reported by Oanda.com as at October 30, 2017.

Based on information as of today, November 2, 2017, the Company is issuing the following financial guidance for the full 2018 fiscal year:

- Subscription revenue - R1,420 million to R1,432 million (\$100.8 million to \$101.7 million), which would represent subscription revenue growth of 14.5% to 15.5% compared to fiscal 2017.
- Total revenue - R1,661 million to R1,687 million (\$117.9 million to \$119.8 million), which would represent revenue growth of 7.8% to 9.5% compared to fiscal 2017.
- Adjusted EBITDA - R403 million to R421 million (\$28.6 million to \$29.9 million), which would represent Adjusted EBITDA growth of 33.6% to 39.7% compared to fiscal 2017.
- Adjusted earnings per diluted ordinary share of 22.0 to 23.5 South African cents based on 568 million diluted ordinary shares in issue, and based on an effective tax rate of 28.0% to 31.0%. At a ratio of 25 ordinary shares to one ADS, this equates to adjusted earnings per diluted ADS of 39.1 to 41.7 U.S. cents.

For the third quarter of fiscal 2018, the Company expects subscription revenue to be in the range of R362 million to R367 million (\$25.7 million to \$26.1 million) which would represent subscription revenue growth of 16.5% to 18.1% compared to the third quarter of fiscal 2017.

The key assumptions used in deriving the forecast are as follows:

- Growth in subscription revenue and vehicles under subscription are based on expected growth rates related to market conditions and takes into account growth rates achieved previously.
- Achieving hardware sales according to expectations. Hardware sales are dependent on the volumes of bundled solutions selected by customers.
- An average forecast exchange rate for the 2018 fiscal year of R13.5000 per \$1.00.

The forecast is the responsibility of the board of directors and has not been reviewed or reported on by the Company's external auditors. The Company's policy is to give guidance on a quarterly basis, if necessary, and does not update guidance between quarters.

The Company provides earnings guidance only on a non-IFRS basis and does not provide a reconciliation of forward-looking Adjusted EBITDA and Adjusted Earnings per Diluted Ordinary Share guidance to the most directly comparable IFRS financial measures because of the inherent difficulty in forecasting and quantifying certain amounts that are necessary for such reconciliations, including adjustments that could be made for foreign exchange gains/(losses) and related tax consequences, restructuring costs, share-based compensation costs, and other charges reflected in the Company's reconciliation of historic non-IFRS financial measures, the amounts of which, based on past experience, could be material.

The information disclosed in this "**Business Outlook**" paragraph complies with the disclosure requirements in terms of paragraph 8.38 of the JSE Listings Requirements which deals with profit forecasts.

Quarterly Reporting Policy in respect of JSE Listings Requirements

Following the listing of the Company's ADSs on the New York Stock Exchange, the Company has adopted a quarterly reporting policy. As a result of such quarterly reporting the Company is, in terms of paragraph 3.4(b)(ix) of the JSE Listings Requirements, not required to publish trading statements in terms of paragraph 3.4(b)(i) to (viii) of the JSE Listings Requirements.

These forward-looking statements reflect our current views about our plans, intentions, expectations, strategies and prospects, which are based on the information currently available to us and on assumptions we have made. Actual results may differ materially from those described in the forward-looking statements and will be affected by a variety of risks and factors that are beyond our control including, without limitation, those described under the caption "Risk Factors" in the Company's Annual Report on Form 20-F filed with the Securities and Exchange Commission (the "SEC") for the fiscal year ended March 31, 2017, as updated by other reports that the Company files with or furnishes to the SEC. The Company assumes no obligation to update any forward-looking statements contained in this press release as a result of new information, future events or otherwise.

Non-IFRS financial measures

Adjusted EBITDA

To provide investors with additional information regarding its financial results, the Company has disclosed within this press release, Adjusted EBITDA and Adjusted EBITDA margin. Adjusted EBITDA is a non-IFRS financial measure; it does not represent cash flows from operations for the periods indicated and should not be considered an alternative to net income as an indicator of the Company's results of operations or as an alternative to cash flows from operations as an indicator of liquidity. Adjusted EBITDA is defined as the profit for the period before income taxes, net finance income/(costs) including foreign exchange gains/(losses), depreciation of property, plant and equipment including capitalized customer in-vehicle devices, amortization of intangible assets including capitalized in-house development costs and intangible assets identified as part of a business combination, share-based compensation costs, restructuring costs, profits/(losses) on the disposal or impairments of assets or subsidiaries, insurance reimbursements relating to impaired assets and certain litigation costs.

The Company has included Adjusted EBITDA and Adjusted EBITDA margin in this press release because they are key measures that the Company's management and Board of Directors use to understand and evaluate its core operating performance and trends; to prepare and approve its annual budget; and to develop short- and long-term operational plans. In particular, the exclusion of certain expenses in calculating Adjusted EBITDA and Adjusted EBITDA margin can provide a useful measure for period-to-period comparisons of the Company's core business. Accordingly, the Company believes that Adjusted EBITDA and Adjusted EBITDA margin provides useful information to investors and others in understanding and evaluating its operating results.

The Company's use of Adjusted EBITDA has limitations as an analytical tool, and you should not consider this performance measure in isolation from or as a substitute for analysis of our results as reported under IFRS. Some of these limitations are:

- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and Adjusted EBITDA does not reflect cash capital expenditure requirements for such replacements or for new capital expenditure requirements;
- Adjusted EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- Adjusted EBITDA does not consider the potentially dilutive impact of equity-based compensation;
- Adjusted EBITDA does not reflect tax payments that may represent a reduction in cash available to the Company; and
- other companies, including companies in our industry, may calculate Adjusted EBITDA differently, which reduces its usefulness as a comparative measure.

Because of these limitations, you should consider Adjusted EBITDA alongside other financial performance measures, including operating profit, profit for the period and our other results.

Headline Earnings

Headline earnings is a profit measure required for JSE-listed companies and is calculated in accordance with circular 2/2015 issued by the South African Institute of Chartered Accountants. The profit measure is determined by taking the profit for the period prior to certain separately identifiable re-measurements of the carrying amount of an asset or liability that arose after the initial recognition of such asset or liability net of related tax (both current and deferred) and related non-controlling interest.

Adjusted Earnings and Adjusted Earnings Per Share

Adjusted earnings per share is defined as profit attributable to owners of the parent, MiX Telematics Limited, excluding net foreign exchange gains/(losses) net of tax, divided by the weighted average number of ordinary shares in issue during the period.

We have included Adjusted earnings per share in this press release because it provides a useful measure for period-to-period comparisons of the Company's core business by excluding net foreign exchange gains/(losses) from earnings. Accordingly, we believe that Adjusted earnings per share provides useful information to investors and others in understanding and evaluating the Company's operating results.

Free cash flow

Free cash flow is determined as net cash generated from operating activities less capital expenditure for investing activities. We believe that free cash flow provides useful information to investors and others in understanding and evaluating the Company's cash flows as it provides detail of the amount of cash the Company generates or utilizes after accounting for all capital expenditures including investments in in-vehicle devices and development expenditure.

Constant currency and U.S. Dollar financial information

Financial information presented in United States Dollars ("U.S. Dollars" and "\$") and constant currency financial information presented as part of the segment commentary constitute pro forma financial information under the JSE Listings Requirements. Unless otherwise stated, MiX Telematics has translated U.S. Dollar amounts from South African Rand ("R") at the exchange rate of R13.5618 per \$1.00, which was the R/\$ exchange rate reported by Oanda.com as at September 30, 2017.

Constant currency information has been presented to illustrate the impact of changes in currency rates on the Group's results. The constant currency information has been determined by adjusting the current financial reporting period results to the prior period average exchange rates, determined as the average of the monthly exchange rates applicable to the period. The measurement has been performed for each of the Group's currencies, including the U.S. Dollar and British Pound. The constant currency growth percentage has been calculated by utilizing the constant currency results compared to the prior period results.

This pro forma financial information is the responsibility of the Group's board of directors and is presented for illustrative purposes. NOTES TO CONDENSED CONSOLIDATED FINANCIAL RESULTS

1. Basis of preparation and accounting policies

Condensed unaudited Group interim financial results for the half year ended September 30, 2017

These condensed unaudited Group interim financial results for the half year ended September 30, 2017 have been prepared in accordance with International Financial Reporting Standard ("IFRS"), IAS 34: Interim financial reporting, the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee, Financial Pronouncements as issued by the Financial Reporting Standards Council ("FRSC"), the JSE Listings Requirements and the requirements of the South African Companies Act, No. 71 of 2008. The interim financial results have not been audited or reviewed by the Group's external auditors.

The condensed unaudited Group interim financial results do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual financial statements for the year ended March 31, 2017, which have been prepared in accordance with IFRS.

The preparation of interim financial results requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. In preparing these condensed interim financial results, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation and uncertainty were the same as those applied to the consolidated financial statements for the year ended March 31, 2017.

The condensed unaudited Group interim financial results were prepared under the supervision of the Interim Group Chief Financial Officer, PM Dell, CA(SA). The results were made available on November 2, 2017.

The Group has adopted all the new, revised or amended accounting pronouncements as issued by the International Accounting Standards Board (IASB) which were effective for the Group from April 1, 2017, none of which had a material impact on the Group.

Financial results for the second quarter of fiscal 2018

In addition to the condensed unaudited Group interim financial results for the half year ended September 30, 2017, additional financial information in respect of the second quarter of fiscal 2018 has been presented together with the relevant comparative information. The quarterly information comprises a condensed consolidated income statement, a reconciliation of adjusted earnings to profit for the period, a reconciliation of Adjusted EBITDA to profit for the period (note 4) and other financial and operating data (note 11).

The quarterly financial results have not been audited or reviewed by the Group's external auditors.

Presentation currency and convenience translation

The Group's presentation currency is South African Rand. In addition to presenting these interim financial results in South African Rand, supplementary information in U.S. Dollars has been prepared for the convenience of users of the Group interim financial results. Unless otherwise stated, the Group has translated U.S. Dollar amounts from South African Rand at the exchange rate of R13.5618 per \$1.00, which was the R/\$ exchange rate reported by Oanda.com as at September 30, 2017. The U.S. Dollar figures may not compute as they are rounded independently.

The supplementary information prepared in U.S. Dollars constitutes pro forma financial information under the JSE Listings Requirements. This pro forma financial information is the responsibility of the Group's Board of Directors and is presented for illustrative purposes. Because of its nature, the pro forma financial information may not fairly present MiX Telematics' financial position, changes in equity, results of operations or cash flows. The pro forma financial information does not constitute pro forma information in accordance with the requirements of Regulation S-X of the SEC or generally accepted accounting principles in the United States. In addition, the rules and regulations related to the preparation of pro forma financial information in other jurisdictions may also vary significantly from the requirements applicable in South Africa.

2. Accounting policies

The accounting policies used in preparing these financial results are in terms of IFRS and are consistent in all material respects with those applied in the preparation of the Group's annual financial statements for the year ended March 31, 2017.

Unaudited interim financial results

3. Segment information

Our operating segments are based on the geographical location of our Regional Sales Offices ("RSOs") and also include our Central Services Organization ("CSO"). CSO is our central services organization that wholesales our products and services to our RSOs who, in turn, interface with our end-customers, distributors and dealers. CSO is also responsible for the development of our hardware and software platforms and provides common marketing, product management, technical and distribution support to each of our other operating segments.

The chief operating decision maker ("CODM") reviews the segment results on an integral margin basis as defined by management. The CODM, who is responsible for allocating resources and assessing performance of the operating segments, has been identified collectively as the executive committee and the Chief Executive Officer who make strategic decisions. In respect of revenue, this method of measurement entails reviewing the segmental results based on external revenue only. In respect of Adjusted EBITDA (the profit measure identified by the CODM), the margin generated by CSO, net of any unrealized intercompany profit, is allocated to the geographic region where the external revenue is recorded by our RSOs. The costs remaining in CSO relate mainly to research and development of hardware and software platforms, common marketing, product management and technical and distribution support to each of the RSOs. CSO is a reportable segment of the Group because it produces discrete financial information which is reviewed by the CODM and has the ability to generate external revenues.

Each RSO's results therefore reflect the external revenue earned, as well as the Adjusted EBITDA earned (or loss incurred) by each operating segment before the remaining CSO and corporate costs allocations. Segment assets are not disclosed as segment information is not reviewed on such a basis by the CODM.

Fiscal 2017

On April 29, 2016, the Company entered into an agreement (the "share repurchase agreement") with Imperial Holdings Limited ("Imperial Holdings") and Imperial Corporate Services Proprietary Limited ("Imperial Corporate Services"), a wholly owned subsidiary of Imperial Holdings, to repurchase all 200,828,260 of the Company's shares held by Imperial Corporate Services (the "repurchase shares") at R2.36 (\$0.17) per repurchase share, for an aggregate repurchase consideration of R474.0 million or \$34.9 million (the "repurchase"). At the general meeting held on August 1, 2016, shareholders of the Company approved the repurchase in terms of the JSE Listings Requirements and the South African Companies Act, No. 71 of 2008, at which point the transaction was accounted for in terms of IFRS. 8. Dividends Paid

The following dividends were declared by the Company during the six months ended September 30, 2017 (excluding dividends paid on treasury shares):

- In respect of the fourth quarter of fiscal year 2017, a dividend of R11.3 million (\$0.8 million) was declared on May 23, 2017 and paid on June 19, 2017. Using shares in issue of 563,514,561 (excluding 40,000,000 treasury shares), this equated to a dividend of 2 South African cents or 0.1 U.S. cents per ordinary share; and
- In respect of the first quarter of fiscal 2018, a dividend of R14.0 million (\$1.0 million) was declared on August 1, 2017 and paid on August 28, 2017. 9. Acquisition of non-controlling interest

In June 2014, the Group entered into an agreement with Edge Gestão Empresarial LTDA ("Edge"), whereby Edge was granted a 5% holding in the equity interest of MiX Brazil. Prior to this agreement Edge held a non-controlling interest in MiX Brazil of 0.0025%. Edge is a Brazilian-based investment company controlled by Luiz Munhoz, the Managing Director of MiX Brazil. The increase in the equity interests granted to Edge was in respect of services provided by Luiz Munhoz to MiX Brazil, in his role as Managing Director of MiX Brazil. In terms of the quotaholders agreement Edge had an option to transfer its interest in MiX Brazil back to the Group at fair value. The agreement with Edge represented a cash-settled share-based payment.

In September 2017 Edge exercised the put option in the quotaholders agreement. In terms of the sale agreement MiX Investments acquired Edge's 5% equity interest in MiX Brazil for R1.4 million (\$0.1 million) which increased the Group's interest in MiX Brazil to 100%. As a result, the Group recognised a cash-settled share-based payment expense and liability of R1.4 million (\$0.1 million). The non-controlling interest related to MiX Brazil of R1.5 million (\$0.1 million) was also transferred to other reserves within equity.

10. Contingent Liabilities

Service agreement

In terms of an amended network services agreement with Mobile Telephone Networks Proprietary Limited ("MTN"), MTN is entitled to claw back payments from MiX Telematics Africa Proprietary Limited in the event of early cancellation of the agreement or certain base connections not being maintained over the term of the agreement. No connection incentives will be received in terms of the amended network services agreement. The maximum potential liability under the arrangement is R46.1 million or \$3.4 million. No loss is considered probable under this arrangement.

17. Taxation

Section 11D Allowances relating to tax assets recognized

MiX Telematics International Proprietary Limited ("MiX International"), a subsidiary of the Group, historically claimed a 150% allowance for research and development spend in terms of section 11D ("S11D") of the South African Income Tax Act No. 58 of 1962 ("the Act"). As of October 1, 2012, the legislation relating to the allowance was amended. The amendment requires pre-approval of development project expenditure on a project specific basis by the South African Department of Science and Technology ("DST") in order to claim a deduction of the additional 50% over and above the expenditure incurred (150% allowance). Since the amendments to S11D of the Act, MiX International had been claiming the 150% deduction resulting in a recognized tax benefit. MiX International has complied with the amended legislation by submitting all required documentation to the DST in a timely manner, commencing in October 2012.

In June 2014, correspondence was received from the DST indicating that the research and development expenditure on certain projects for which the 150% allowance was claimed in the 2013 and 2014 fiscal years did not, in the DST's opinion, constitute qualifying expenditure in terms of the Act. MiX International, through due legal process, had formally requested a review of the DST's decision not to approve this expenditure. While approvals were obtained for a portion of this project expenditure as a result of a further review performed by the DST in February 2017, we continue to seek approval for the remaining projects and as such the legal process is ongoing. In addition to the approvals that were subject to the legal process, further approvals have been obtained for certain project expenditure, relating to both current and prior financial years. However, at period end, an uncertain tax position remains in relation to S11D deductions in respect of which approvals remain pending.

Since the introduction of the DST pre-approval process, the Group has recognized in the income statement cumulative tax incentives in addition to the incurred cost of R19.6 million (\$1.4 million) in respect of S11D deductions, of which R1.4 million (\$0.1 million) was recognized during the six months ended September 30, 2017. R16.8 million (\$1.2 million) relates to deductions in respect of development project expenditure which has been approved by the DST. R2.8 million (\$0.2 million) relates to an uncertain tax position in respect of projects where approvals have not yet been received from the DST. If the Group is unsuccessful in this regard, the Group will not recover the R2.8 million (\$0.2 million) raised at September 30, 2017.
